

Who Needs an Elder Law Attorney?

An Elder Law Attorney is aware of the real life problems, health and otherwise, that seniors experience as they age. They are tied into a system of Social Workers, Physicians, Psychologists, Geriatric Care Managers, and other elder care professionals who are of importance to the quality of life of their clients. Elder law attorneys who work with seniors bring more to their practice than just experience with the legal issues. They have an in-depth understanding of seniors and recognize and empathize with the physical and mental difficulties that often accompany the aging process.
